Stage Hire

Easy to assemble
Easy to connect.

These two sections of 2m by 1m stage were assembled, roughly leveled and strapped together with the help of the 3 year old demo Star in under 15min

It would take 2 normal people less time.

Simply slot the legs into the sockets, tighten the Bolts, slide a levelling spacer or two in place and strp the decks together

We currently have six pieces of 2m by 1m, and one 1m square which can give a stage of upto 4m by 3m (bigger than most venues in sheffield) which can be assembled in about 30minutes – unless your assistant is a toddler.
